

# ARMORBOARD

Protect the Edge®

Armorboard® protective packaging is an effective and economical solution to protecting your products from being damaged in transit or storage. Armorboard provides lightweight edge protection, load containment, and uniform weight distribution for improved stacking and stabilization - a simple addition to your packaging process.

**Armorboard is a made to  
order recycled paper product.  
Lightweight, yet strong as an Ox.**

*All of our products are manufactured from recycled materials*

**You will love our  
not-so-standard  
standards!**

# START TO FINISH, OX GETS IT DONE EVERY TIME.

We are the largest independently owned, vertically integrated producer of paper tube and core, paperboard, protective packaging and specialty paper products. We take the time to educate, train, and support customers with large-scale needs every day.

## OUR LOCATIONS AND MARKETS

*Our national footprint is growing - while we help shrink the world's carbon footprint. We use 100% recyclable materials, and all paper waste is crushed and sent back to our paper mills for recycling.*
